Stow-Away

1 Instruction Sheet

## Stow-Away Installation

The Stow-Away is easy to install using the following steps:

1. Place the Stow-Away on the fascia in the location you want it to be mounted.
2. Mark the four mounting hole locations with a pencil.
3. Carefully drill out the marked holes for Stow-Away installation.
4. Attach the Stow-Away with four small screws of your choice.

**That's all that's required for installation of your Stow-Away!**
