## Windows XP Driver Installation.

- If you have a SoundLoader Install CD is inserted in your PC's CD player. Otherwise go to <u>www.digitrax.com/downloads</u> and download the driver located in the PR3 Windows XP, Vista, and Windows 7 & 8 Drivers section. Save the driver file to your Windows Desktop or other easily accessed location..
- Plug the PR3 into a vacant USB slot on your PC using the supplied cable.
- The following screen should open when the PC finds the new hardware device.

Found New Hardware Wizard		
	Welcome to the Found New Hardware Wizard	
	Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission). <u>Read our privacy policy</u>	
	Can Windows connect to Windows Update to search for software? Yes, this time only Yes, now and <u>e</u> very time I connect a device No, not this time	
	Click Next to continue.	
	< <u>Back</u> Next> Cancel	

Select the "No, not this time" button to allow you to specify the driver file location.

## Click Next. The following screen should appear.

Found New Hardware V	Vizard
	This wizard helps you install software for: Communications Port If your hardware came with an installation CD or floppy disk, insert it now.
	What do you want the wizard to do? <ul> <li>Install the software automatically (Recommended)</li> <li>Install from a list or specific location (Advanced)</li> <li>Click Next to continue.</li> </ul>
	< <u>B</u> ack Next > Cancel

Select the "Install from a list or specific location" button.

Click Next. The following screen should appear.

<sup>o</sup> lease choo:	se your search and installation options.
● <u>S</u> earc	h for the best driver in these locations.
	ne check boxes below to limit or expand the default search, which includes local paths and vable media. The best driver found will be installed.
	Search removable <u>m</u> edia (floppy, CD-ROM)
<ul> <li>Image: A start of the start of</li></ul>	Include this location in the search:
	D:\win_xp_vista32_64\ Browse
O Don't :	search. I will choose the driver to install.
Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.	
	< Back Next > Cancel

Click Browse and select the "win\_xp\_vista32\_64" folder on the cd. If you

downloaded the file from the website, enter the location where you

saved the driver file to. Click Next and the following Screen should

## appear.

Hardware Installation		
1	The software you are installing for this hardware: Communications Port has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.) Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.	
	<u>C</u> ontinue Anyway <u>S</u> TOP Installation	

.Click "Continue Anyway" and the following Screen should appear

after the driver is loaded.
